

Star Light. Star Bright.

Wishing for a cure tonight.

In Honor of Isabella Santos and all other kids fighting.

March 9, 2021 | 7:00PM

Our mission...

The Isabella Santos Foundation (ISF) is committed to improving rare pediatric cancer treatment options in an effort to reduce toxic treatments and increase survival rates.

The event...

On March 9th, our founder Isabella Santos would have turned 16 years old. As the sun sets on this day, ISF will honor her and other cancer fighters near and far, by lighting luminaries to signify the fight to cure pediatric cancer. Let's come together to create a brighter world for kids fighting cancer. Proceeds raised from the event will help fund a clinical trial focusing on relapsed neuroblastoma at Levine Children's.

Who is participating...

People who want to fund positive change in the pediatric cancer community. Guests include those near and far who fight for all the Isabella's out there.

Star Light. Star Bright.

Let's create a brighter world for kids fighting cancer.
